Chairman's Statement

Dear Shareholders,

On behalf of the Board of Directors, I am pleased to present the Annual Report and Audited Financial Statements of Selinsing PLC for the year ended 31st March 2017, and welcome you to the One Hundred and Tenth Annual General Meeting of the Company.

Discontinued Operations in Malaysia

As informed and communicated in the previous annual report as well as through the subsequent quarterly financial statements and shareholder circulars, the Company's Malaysian Plantation Property was sold to Kuala Lumpur Kepong Bhd. for a consideration of RM 55 Mn and the possession of the plantation was handed over to the buyer on 10th November 2016. The sale was completed during the year and the net sale proceeds of Rs. 1.70 Bn was distributed to the shareholders in the form of a share repurchase with due shareholder and regulatory approvals. Consequent to the disposal of the plantation, the Company's branch operation in Malaysia has been discontinued and is being closed down.

The financial performance of the plantations till the date of hand over has been classified as "discontinued operations" in accordance with the requirements of the Sri Lanka Financial Reporting Standards (SLFRS) in the financial statements of the Company for the year ended 31st March 2017, presented together with the annual report.

Financial Performance

A net profit after tax of Rs. 63.92 Mn was recorded "as operating profits" from the plantations till the date of hand over, and classified as profits from discontinued operations in these financial statements.

Further, the Company recorded a gain of Rs. 321.55 Mn from the part disposal of the shares held in Shalimar (Malay) PLC following the acceptance of the repurchase offer made by that Company.

No dividend income was received from the Company's long term unquoted investment made in Indonesia through Shalimar Developments Sdn. Bhd., given the current performance of the global Oil Palm sector. The Indonesian plantations are currently facing the impact of low cropping arising from two consecutive years of drought weather conditions. However, the Company received a dividend from its investment held in Shalimar (Malay) PLC.

Your Company recorded a net profit after tax of Rs.323.49 Mn for the year (as compared to Rs. 84.91 Mn recorded in the previous financial year) taking into account operating profits from discontinued operation, profit on sale of the Malaysian plantation and profits from continuing operations. Going forward the income stream of the Company would be dividend receipts from it's investments.

Minimum Public Holding

As per the directive issued by the Securities and Exchange Commission (SEC) of Sri Lanka dated 17th November 2016, a Listed Entity on the Main Board

Chairman's Statement

having a public holding below the specified requirement in terms of the said directive, has to ensure that the public holding of such entity is maintained at a defined public holding percentage of shares in the hands of a minimum number of 500 public shareholders on or before 30th June 2017. The Company does not at present satisfy the requirement relating to minimum public holding.

In this regard, I wish to highlight that the objective of the voluntary offer made to all shareholders in 2011 was to acquire the entire minority shareholding as a step towards the consolidation of the oil palm plantation business segment of Carsons group. The offer documents also mentioned that upon completion of the voluntary offer, the rationale for remaining listed will be evaluated. Since the voluntary offer did not result in the acquisition of the entire minority shareholding, the Company continued to remain listed.

Taking into consideration that a voluntary offer had been made and also considering that there is no requirement for additional capital infusion to the Company and resultantly, there being no plans for issuing of new shares nor a dilution by the majority shareholder, and as previously communicated to shareholders through market disclosures and Annual Reports, the Company would not be in compliance with the said requirements and we would report on the proposed course of action in consultation with the regulator.

In conclusion, I would like to place on record the support extended by the regulatory authorities in Sri Lanka and in Malaysia specifically in facilitating the disposal of the plantations in Malaysia in accordance with shareholder approvals received and in completing the hand over process in a timely manner.

On behalf of the Board of Directors of the Company, I extend our appreciation to the shareholders for their continued support and confidence placed in the Directors and to all our business associates. I am thankful to our management and staff in Malaysia and Sri Lanka for their hard work and dedication during an extremely volatile period. Last but not least, I would like to thank my fellow Board Members for their support and guidance throughout the year, and to the members of the Audit Committee, Remuneration Committee and Related Party Transactions Review Committee for their invaluable efforts.

Review of Industry and Operational Performance

Review of Operations – Discontinued Operations

The operations of the Company consist of two segments as presented hitherto in the segmental analysis with the financial statements, i.e its plantations in Malaysia (Oil Palm Plantation Segment) and the equity investment (Investment Segment). As indicated in the Chairman's Statement, the plantation was sold to Kuala Lumpur Kepong Bhd. of Malaysia for a consideration of RM 55 Mn (approx Rs. 1.88 Bn) during the period under review with the due shareholder and regulatory approvals and the net sales proceeds of Rs. 1.70 Bn were distributed to shareholders in the form of a share repurchase. Consequently, the plantation was handed over to the new owners on 10th November 2016.

The palm oil industry which was subjected to impacts of weather patterns resulting in lower crop production and continued low price regimes over the last two years witnessed signs of recovery specifically in the CPO prices during the period under review. The low CPO inventory in Malaysia, arising from the current low production cycle and rapid depreciation of the Malaysian Ringgit witnessed during the period under review has contributed to the recovery of Malaysian CPO prices. However, the global palm oil industry continues to face the resultant impact of low production as a result of two previous years of adverse weather conditions.

Accordingly, a higher net sale average of RM 589.38 was recorded upto the date of transfer of the plantations, whilst the crop performance was lower than the production in the corresponding period of the previous financial year. The FFB production upto the date of transfer was

6,116 MT compared to 13,612 MT produced in FY 2015/16. The crop production particularly in the first half of the current financial year was significantly impacted by the adverse weather conditions and biological impact of the adverse weather conditions over the previous two financial years.

Accordingly, a net profit after tax of Rs. 63.92 Mn was recorded from the plantation operations for the year under review, until the date of transfer of the handing of the possession of the plantation. Further, a profit of Rs.227.33 Mn (net of tax) was recorded during the period under review on the disposal of the plantation assets in Malaysia. The corresponding Revaluation Reserve related to the Malaysian Property which hitherto was recognized as a reserve (since the property was recorded at fair value based on the accounting policy adopted by the Company) has now been transferred to Retained Earnings consequent to the disposal of the asset. This is reflected in the Statement of Changes in Equity in the enclosed Financial Statements. Further, as required by Accounting Standards, the accumulated foreign currency translation reserve has been recognized in the Statement of Profit or Loss on the discontinuation of the Malaysian Branch Operation.

The financial performance of the plantations till the date of hand over has been classified as "discontinued operations" in accordance with the requirements of the Sri Lanka Financial Reporting Standards (SLFRS) in the financial statements of the Company for the year ended 31st March 2017, presented together with the annual report.

Review of Industry and Operational Performance

Performance of Continuing Operations – Investment Segment

This segment consists of the equity investment made by the Company in Indonesia (PT Agro Indomas) through Shalimar Developments Sdn. Bhd. (SDSB) and the shares held in Shalimar (Malay) PLC (SMPLC).

The Indonesian investment, PT Agro Indomas is managed through the group's fully owned management arm in Indonesia. PT Agro Indomas consists of 26,861 hectares of plantation with processing facilities of 225 MT/hr within the plantations. The Indonesian operations was significantly impacted by the El-Nino weather patterns witnessed during the previous year and had recorded two consecutive years of adverse weather effects, resulting in reduced crop production. The performance of this investment has reflected similar crop production recorded by other listed entities in the region.

Statistics pertaining to the Operating performance of the Indonesian Investment, PT Agro Indomas is provided in this annual report in section 7 under "information to Shareholders and Investors" in pages 82 & 83.

Accordingly, no dividend was received during the year under review from SDSB, given the relatively tough operating conditions and the resultant performance of the Indonesian investment during the year. The dividend income received during the year relates to that received from SMPLC.

The Investment in SDSB is recorded in the financial statements at fair value as determined by independent professional valuer as more fully explained in Note 12 to the financial statements.

Further, the Company recorded a gain of Rs. 321.55 Mn from the part disposal of the shares held in SMPLC following the acceptance of an offer made by SMPLC to repurchase shares held in that Company as disclosed under Other Income and Gains in Notes 4 to the Financial Statements.

Overall financial performance of the Company

Resultantly, your Company recorded a profit after tax of Rs. 323.49 Mn from continued and discontinued operations including the profit on the sale of the plantations during the year under review, as compared to Rs. 84.91 Mn recorded in the previous year.

Distribution

During the year, the Company distributed the net sale proceeds of Rs 1.70 Bn (after deducting related taxes and expenses in Malaysia and Sri Lanka) to the shareholders of the Company through a repurchase of shares (as explained further in note 14.1 to the financial statements) after having obtained due approval from shareholders and regulatory authorities. Further, the Company also declared an interim dividend of Rs. 416.56 Mn out of the profits of the Company.

Risk Management

The Company's overall risk management objective is to ensure that it creates value to its shareholders, whilst minimizing any potential adverse impact. The established risk management framework is aligned to that of its parent company and Board approved policies and guidelines

The integrated risk framework ensures prevention and early detection of risks as well as exploitation of opportunities contributing to a sustainable business model. The risks are continuously reviewed and managed through the deployment of effective corrective actions.

Discontinued Business Segment

As noted in this annual Report, the Company disposed of its plantation property in Malaysia during the financial year which is disclosed in discontinued operations. Accordingly, the branch operation is being closed down and hence, the risks associated with the plantation business segment as disclosed in previous annual reports will no longer be applicable.

Continuing Business Segment

The continuing business of the Company consists of the (i) equity investment made in Shalimar Development Sdn. Bhd. (SDSB) and (ii) shares held in Shalimar (Maly) PLC. SDSB owns shares in PT Agro Indomas of Indonesia, which is in the Oil Palm Plantation business. The Company's only source of income going forward will be due potential dividend income it may earn from its long term equity investments. The performance of the investments (both the investment value and the returns) are subject to the following key risks.

(a) Investment Income Risk

i. Commodity Price Risk

The price of Crude Palm Oil (CPO), the main produce of the investee company, is determined by international market forces. The price of CPO has been volatile over the past few years along with the movements in the global commodities

market. The sale of CPO is the prime source of cash inflow for the investee company. Therefore, any volatility in CPO prices will have a direct impact on the operating results and cash flows of the investee companies and its ability to pay dividends.

ii. Environmental Risk

Unfavourable weather patterns, resulting in extreme conditions for palm growth, natural and man-made disasters such as fire and potential crop disease could affect the quantity and/or quality of the produce. Accordingly, this can impact the volume of CPO production, and therefore, the operating results and cash flows generated by the investee companies and its ability to pay dividend.

(b) Investment Valuation Risk

The value of the investments in the investee companies are stated at fair value and are assessed by an independent professional valuer using the discounted cash flows methodology. Some of the key assumptions which impact the valuation include the forecasted international selling price of CPO and the applicable market discount rate, both of which are beyond the control of the Company. While adequate measures are taken to manage the controllable input of the valuation assumptions, volatility in external environment and industry dynamics such as weather patterns and biological cycles together with macro-economic and political factors including inflation rates, also can result in fluctuations in the appraised fair value of the investments in the financial statements.

(c) Foreign Exchange Risk

A currency risk is generated through the translation of foreign currency denominated investment to Sri Lankan Rupee for the purpose of financial reporting in Sri Lankan Rupees.

Annual Report of the Board of Directors on the Affairs of the Company

The details set out herein provide the pertinent information required by the Companies Act No. 7 of 2007, Listing Rules of the Colombo Stock Exchange and recommended best accounting practices. The Annual Report was approved by the Directors on 24th April 2017.

1. General

The Directors have pleasure in presenting to the shareholders their Report together with the Audited Financial Statements for the year ended 31st March 2017 of Selinsing PLC, a public limited liability Company incorporated in Sri Lanka in 1907.

2. The Principal Activities of the Company

The Company's principal activities were cultivation of oil palm and managing and holding of an investment portfolio. As noted in the Chairman's Statement and Review of Industry and Operational Performance in page 3 and under Risk Management in page 5 of the Annual Report, during the financial year, the Company disposed of its Malaysian plantation assets and consequently exited from the core business segment of Oil Palm Plantation. Accordingly, the Company's branch operation in Malaysia has been discontinued and is being closed down. Hence, the principal activity of the Company is now managing and holding of an investment portfolio.

3. Sale of Malaysian Plantation Property

As disclosed to the shareholders and to the market via circulars and the interim financial statements, The company after obtaining regulatory and shareholder approval, completed the sale of the Malaysian plantation assets to the buyer, Kuala Lumpur Kepong Bhd. on 10th November 2016 for a consideration of RM 55 Mn (approx. Rs.1.88 Bn) during the year under review. Accordingly, the oil palm plantation segment is classified as "discontinued operations" in the Financial Statements.

The resulted net sales proceeds were distributed to shareholders as more fully disclosed in section 15 on page 17.

4. Review of Operations

The review of the Company's operations during the year, with comments on financial results is stated in the Chairman's Statement on pages 1 and 2, and the Review of Industry and Operational Performance on page 3 & 4. These reports form an integral part of the Annual Report of the Board of Directors on the Affairs of the Company.

5. Financial Results

The Company recorded a net profit after tax of Rs.323.49 Mn for the year. This included the profit from the disposal of the overseas plantation assets of Rs. 227.32 Mn.

6. Auditors' Report

The Auditors' Report on the Financial Statements is given on page 27 of this Annual Report.

7. Significant Accounting Policies

The Accounting Policies adopted in the preparation of the Financial Statements are given on pages 33 to 48 in the Notes to the Financial Statements.

The Company adopted the amendments to LKAS 41 and LKAS 16 with effect from 1 April 2016.

Under the amendments, biological assets that meet the definition of bearer plants will no longer be within the scope of LKAS 41. Instead, bearer plants were measured under LKAS 16 at accumulated cost (before maturity) using the cost model (after maturity) upto the date of disposal. These amendments have been applied retrospectively.

With the disposal of the oil palm segment, certain accounting policies specific to the Oil palm segment will no longer be applicable for future financial periods.

Annual Report of the Board of Directors on the Affairs of the Company

8. Financial Statements

The Company has prepared its Financial Statements, in compliance with Sri Lanka Accounting Standards (SLFRS/LKAS).

The Financial Statements of the Company comprising the Statement of Profit or Loss, Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity and Cash Flow Statement together with the accompanying Notes to the Financial Statements for the year ended 31st March 2017, are set out on pages 28 to 69.

The retiring Auditors have expressed their willingness to continue in office. A resolution to re-appoint them as Auditors of the Company and authorizing the Directors to fix their fee will be proposed at the forthcoming Annual General Meeting.

The Audit Committee reviewed the appointment of the Auditors, its effectiveness and its relationship with the Group, including the level of audit and non-audit fees paid to the Auditors.

13.1 Auditors' Relationship or any Interest with the Company

The Directors are satisfied that, based on written representations made by the Independent Auditors to the Board, the Auditors did not have any interest with the Company that would impair their independence.

Annual Report of the Board of Directors on the Affairs of the Company

14. Compliance With Rules of the Colombo Stock Exchange

The Board has ensured that the Company has complied with the Rules pertaining to Corporate Governance and Related Party Transactions as per the Listing Rules of the Colombo Stock Exchange (CSE). The requirement with regard to minimum public holding is noted in 14.1 below.

14.1 Minimum Public Holding

As per the directive issued by the Securities and Exchange Commission (SEC) of Sri Lanka dated 17th November 2016, a Listed Entity on the Main Board having a public holding below the specified requirement in terms of the said directive, has to ensure that the public holding of such entity is maintained at a defined public holding percentage of shares in the hands of a minimum number of 500 public shareholders on or before 30th June 2017. The Company does not at present satisfy the requirement relating to minimum public holding.

As explained in the Chairman's Statement in page 1, considering that there is no requirement for additional capital infusion to the Company and resultantly there being no plans for issuing of new shares nor a dilution by the majority shareholder, the Company would not be in compliance with the said requirements and the Company would report on the proposed course of action in consultation with the regulator.

14.2 Board of Directors

The following Directors held office during the year under review and their brief profiles are given on pages 6 to 8 of this Annual Report.

Directors	Executive/ Non-Executive/ Independent

Audit Committee Report

Audit Committee

In accordance with the Colombo Stock Exchange Listing Rules, the Audit Committee of Carson Cumberbatch PLC (CCPLC), the Parent Company of Goodhope Asia Holdings Limited (GAHL), functions as the Audit Committee of the Company.

The Audit Committee consists of the following Members :

Audit Committee Members	Executive/ Non-Executive/ Independent
Mr. V.P. Malalasekera	Non-Executive/ Independent (CCPLC)
Mr. D.C.R. Gunawardena	Non-Executive (CCPLC)
Mr. F. Mohideen	Non-Executive/ Independent (CCPLC)

Mr.V.P. Malalasekera is a Non-Executive, Independent Director of CCPLC and a former Director of Ceylon Tobacco Company PLC.

Mr.D.C.R. Gunawardena is a Non-Executive Director of CCPLC and in most of its Group Companies. He is a Fellow of the Chartered Institute of Management Accountants, U.K.

Mr.F. Mohideen, a Non-Executive, Independent Director of CCPLC, was a former Deputy Secretary to the Treasury and a former Director of Bank of Ceylon and Securities and Exchange Commission of Sri Lanka.

The audit aspects of Selinsing PLC are conducted within the Agenda of CCPLC - Audit Committee.

Meetings of the Audit Committee

CCPLC-Audit Committee held four (04) meetings during the financial year to discuss matters relating to the Company.

The attendance of the Members of the Committee was as follows:

Meetings	Attended (out of 04)
Mr. V.P. Malalasekera	04
Mr. D.C.R. Gunawardena	04
Mr. F. Mohideen	04

The Audit Committee meetings were attended by the Chief Financial Officer, Internal Auditor, as well as the Senior Management staff members.

The Committee met the External Auditors, Messrs.Ernst & Young twice during the year to discuss the audit scope and to deliberate the draft Financial Report and Accounts. The Audit Committee also discussed the draft Financial Report and Accounts with the External Auditors, without the management being present.

Purpose of the Audit Committee

To assist the Board of Directors in fulfilling its oversight responsibilities for the financial reporting process, the system of internal control over financial reporting, the audit process and the Company's process for monitoring compliance with laws and regulations, Company policies and procedures and the code of conduct.

To ensure that the internal audit activity is well managed, so that it adds value to the organization by being objective in providing relevant assurance, contributing to the effectiveness and efficiency of governance, risk management and control processes.

Financial Statements

The interim financial statements of Selinsing PLC have been reviewed by the Audit Committee Members at Audit Committee Meetings. The draft financial statements of Selinsing PLC for the year ended 31st March 2017 were also reviewed at a Meeting of the Audit Committee Members, together with the External Auditors, Messrs. Ernst & Young, prior to release of same to the Regulatory Authorities and to the shareholders.

The financial statements include the sales proceeds received from the disposal of the Company's Malaysian property and the consequent gains, which are disclosed under discontinued operation in these financial statements.

The Audit Committee Members were provided with confirmations and declarations as required, by the Managers, Agro Harapan Lestari Sdn. Bhd. that the said financial statements were prepared in accordance with the Sri Lanka Accounting Standards (SLFRS/LKAS) and the information required by the Companies Act No. 7 of 2007 therein and presented a true and fair view of the Company's state of affairs as at that date and the Company's activities during the year under review.

Internal Audit

In accordance with the recommendation of the Audit Committee, the financial audits are

carried out annually, whilst no field audits at estate level were carried out since the Plantation was to be sold during the financial year 2016/2017.

Performance of the Investments held by the Company

The Company's investment in PT Agro Indomas (PTAI), held through Shalimar Developments Sdn. Bhd., is managed by the group's (GAHL) fully owned management arm in Indonesia, PT Agro Harapan Lestari. GAHL's Audit Committee covers audit obligations over Indonesian Plantation Operations incorporated in Indonesia, including PTAI.

External Audit

The Members of the Audit Committee have determined that Messrs. Ernst & Young, Chartered Accountants were independent on the basis that they did not carry out any special assignment on the operations of the Company. The Committee has reviewed the external audit plan, as well as the management letter and followed up on issues raised.

The Members of the Audit Committee have concurred to recommend to the Board of Directors the re-appointment of Messrs. Ernst & Young, Chartered Accountants, as Auditors for the financial year ending 31st March 2018, subject to the approval of the shareholders of Selinsing PLC at the Annual General Meeting.

Related Party Transactions Review Committee Report

In accordance with the Colombo Stock Exchange Listing Rules, the Related Party Transactions Review Committee (RPTRC) of Carson Cumberbatch PLC (CCPLC), the Parent Company of Goodhope Asia Holdings Limited, functions as the RPTRC of the Company.

Composition of the Committee

The Members of the RPTRC are as follows :

1. Mr.V. P. Malalasekera (Chairman) - Non-Executive/Independent Director of CCPLC
2. Mr. F. Mohideen - Non-Executive/Independent Director of CCPLC
3. Mr. D. C. R. Gunawardena - Non-Executive Director of CCPLC
4. Mr. H. Selvanathan - Executive Director of CCPLC
5. Mr. M. Selvanathan - Executive Director of CCPLC
6. Mr. S. K. Shah - Executive Director of CCPLC

Meetings of the Related Party Transactions Review Committee

CCPLC-RPTRC held three (03) meetings during the financial year to discuss matters relating to the Company.

The attendance of the Members of the Committee was as follows:

Meetings attended (out of 03)

Mr.V.P. Malalasekera	03
Mr.F. Mohideen	03
Mr.D.C.R. Gunawardena	03
Mr.H. Selvanathan	02
Mr.M. Selvanathan	02
Mr.S.K. Shah	03

Purpose of the Committee

The objective of the RPTRC is to review all Related Party Transactions (RPTs) of the Listed Companies of the Carsons Group, other than those exempted by the 'Related Party Transactions Compliance Code' (RPT Code), prior to the transaction being entered into or, if the transaction is expressed to be conditional on such review, prior to the completion of the transaction.

Policies and procedures

- The RPTRC reviews all the Related Party Transactions of the Listed Companies of the Carsons Group and where the Committee decides that the approval of the Board of Directors of the respective Companies is necessary to approve a Related Party Transaction, such Board approval is obtained prior to entering into the relevant Related Party Transaction.
- When reviewing a transaction, the RPTRC would decide whether the proposed transaction is carried out on an arm's length basis irrespective of whether it is recurrent or non-recurrent in nature.
- Reviewing and approval would be either by meeting of members (subject to quorum being present) or by circulation.
- In determining whether to obtain the approval of the Board of Directors for a Related Party Transaction, the RPTRC will take into account, among other factors it deems appropriate, whether the proposed RPTs pose a conflict of interest to the Directors.

During the year the Company disposed of its Malaysian plantation property and utilized the net sale proceeds to repurchase its shares. The repurchase of shares from Goodhope Asia Holdings Limited, the Holding Company amounted to a Non-Recurrent Related Party Transaction as per the RPT Code. This Committee has reviewed and approved the repurchase transaction in accordance with the Code.

The self-declarations from the Directors and Key Management Personnel are obtained for the purpose of identifying parties related to them. Further, the guidelines which senior management must follow in routing Related Party Transactions to the relevant forum, including transaction threshold values and pricing where applicable, have been documented even in the case of once approved recurrent transactions which are of operational nature, which as per the RPT Code need not be repeatedly approved if within the broad thresholds.

The RPTRC in discharging its function has introduced processes and periodic reporting by the relevant entities with a view to ensuring that:

- there is compliance with the Code;
- shareholder interests are protected; and
- fairness and transparency are maintained.

The Committee has a criteria for designating Carsons Group Key Management Personnel. Further, processes have been introduced to obtain annual disclosures from all Key Management Personnel so designated.

The Related Party Transactions of the Company for the period 1st April 2016 to 31st March 2017 have been reviewed by the Members of the RPTRC and the comments and observations of the Committee have been communicated to the Board of Directors of the Company. The approval of the shareholders have been obtained and announcements were made to the Colombo Stock Exchange where applicable.

TO THE SHAREHOLDERS OF SELINSING PLC Report on the Financial Statements

We have audited the financial statements of Selinsing PLC ("the Company"), which comprise the statement of financial position as at 31 March 2017, and the statement of profit or loss, statement of comprehensive income, statement of changes in equity and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information. (set out on pages 28 to 69)

Board's Responsibility for the Financial Statements

The Board of Directors ("Board") is responsible for the preparation of these financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as Board determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Sri Lanka Auditing Standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the

appropriateness of accounting policies used and the reasonableness of accounting estimates made by Board, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Company as at March 31, 2017, and of its financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

Report on Other Legal and Regulatory Requirements

As required by section 163 (2) of the Companies Act No. 07 of 2007, we state the following:

- The basis of opinion, scope and limitations of the audit are as stated above.
- In our opinion:
 - we have obtained all the information and explanations that were required for the audit and, as far as appears from our examination, proper accounting records have been kept by the Company and,

- the financial statements of the Company, comply with the requirements of section 151 of the Companies Act.

Notes to the Financial Statements

1. CORPORATE INFORMATION

1.1 General

Selinsing PLC ("Company") is a public quoted company with limited liability, incorporated and domiciled in Sri Lanka. The registered office of the Company is located at No. 61, Janadhipathi Mawatha, Colombo 01.

1.2 Principal Activities and Nature of Operations

The Company's principal activities were cultivation of oil palm and managing and holding of an investment portfolio. As noted in the Chairman's statement and Review of Industry and Operational performance, during the financial year, the Company disposed of its Malaysian plantations assets and consequently exited from the Oil Palm Plantation Segment. Hence, the principal activity of the Company is now managing and holding of an investment portfolio.

1.3 Parent Entity and Ultimate Parent Entity

The Company's parent entity is Goodhope Asia Holdings Limited incorporated in Singapore. In the opinion of the directors, the Company's ultimate parent undertaking and controlling party is Bukit Darah PLC which is incorporated in Sri Lanka.

1.4 Date of Authorization for Issue

The Financial Statements of Selinsing PLC for the year ended 31 March 2017 was authorized for issue in accordance with a resolution of the board of directors on 24th April 2017.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 General Accounting Policies

2.1.1 Statement of Compliance

The Financial Statements of Selinsing PLC comprises the Statement of Financial Position and the Statement of Profit or Loss, Statement of Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows, together with the Accounting Policies and Notes to the Financial Statements.

These financial statements are prepared in accordance with the Sri Lanka Accounting Standards laid down by the Institute of Chartered Accountants of Sri Lanka, and also in compliance with the requirements of the Companies Act No. 7 of 2007.

2.1.2 Basis of Preparation

The Financial Statements of the Company have been prepared in accordance with Sri Lanka Accounting Standards (SLFRS and LKAS) as issued by Institute of Chartered Accountants of Sri Lanka.

Notes to the Financial Statements

The Financial Statements have been prepared on a historical cost basis, except for the following material items in the Statement of Financial Position,

- Available-for-sale financial assets are measured at fair value
- Land is measured at cost at the time of the acquisition and subsequently land is revalued

2.1.3 Adoption of Amendments to LKAS 41 (Agriculture) and LKAS 16 (Property, Plant and Equipment)

The Company adopted the amendments to LKAS 41 and LKAS 16 with effect from 1 April 2016. Under the amendments, biological assets that meet the definition of bearer plants will no longer be within the scope of LKAS 41. Instead, bearer plants were measured under LKAS 16 at accumulated cost (before maturity) using the cost model (after maturity) up to the date of disposal. These amendments have been applied retrospectively.

Reconciliation of equity and reconciliation of total comprehensive income for the year ended 31 March 2016 are given in Note 11.1 to the financial statements.

2.1.4 Comparative Information

The accounting policies have been consistently applied by the Company and, are consistent with those

used in the previous year except for the Note 11 disclosed below. Previous year's figures and phrases have been rearranged whenever necessary to conform to current presentation.

With the disposal of the oil palm segment, certain accounting policies (given under accounting policies 2.3.1, 2.3.2, 2.3.4, 2.3.5, 2.4.1 & 2.6) specific to the Oil palm plantations segment will no longer be applicable for the future financial periods.

2.2 Summary of Significant Accounting Policies

2.2.1 Conversion of Foreign Currencies

(a) Presentation Currency

The Financial Statements are presented in Sri Lankan Rupees.

(b) Investment Operations in Sri Lanka

The functional currency of the investment operations in Sri Lanka is Sri Lankan Rupees. Transactions in foreign currencies are initially translated into functional currency using the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies as at the reporting date are translated at the functional currency rate of exchange ruling at that date. The exchange differences arising on translation are taken to Statement of profit or loss.

(c) Operations in Malaysia

The functional currency of the foreign operations in Malaysia is the

Malaysian Ringgit. As at the reporting date, the assets and liabilities of the Malaysian Operations are translated into the presentation currency (Sri Lankan Rupees) at the rate of exchange ruling at the reporting date and the items in the statement of profit or loss are translated at the average exchange rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income.

2.2.2 Taxation

(a) Current Taxes

The Company's liability to taxation is computed in accordance with the provisions of the Inland Revenue Act, No. 10 of 2006 and the subsequent amendments thereto. Full consideration is given to the tax laws prevailing in the countries of incorporation and operation.

Liability to taxation of the Company is made after claiming relief available in terms of the Double Taxation Agreement entered into between the Governments of Malaysia and Sri Lanka.

(b) Deferred Taxation

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all temporary differences, except:

- Where the deferred tax liability arises from an asset or liability in a transaction that affects neither the accounting profit nor the taxable profit.

Deferred tax assets are recognized for all deductible differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profits will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- Where the deferred tax assets relating to deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that affects neither the accounting profit nor the taxable profit.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the deferred tax assets to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Notes to the Financial Statements

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the assets are realized or the liabilities are settled, based on tax rates and tax laws that have been enacted or substantially enacted at the reporting date.

Current tax and deferred tax relating to items recognized directly in statement of other comprehensive income are also recognized in statement of other comprehensive income and not in the statement of profit or loss.

Deferred tax assets and liabilities are set off if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.2.3 Events occurring after the Reporting Period

The materiality of the events occurring after the reporting date is considered and appropriate adjustments or disclosures are made in the Financial Statements in accordance with LKAS 10: Events After the Reporting Period.

2.3 Assets and Bases of Their Valuation

Assets classified as current assets in the Statement of Financial Position are cash and those which are expected to be realised in cash

during the normal operating cycle of the Company's business or within one year from the reporting date.

Assets other than current assets are those which the Company intends to hold beyond a period of one year from the reporting date.

2.3.1 Property, Plant & Equipment

(1) Valuation

Property, Plant & Equipment are stated at cost or valuation less accumulated depreciation, provided on the basis stated in (3) below.

(2) Cost

Cost of Property, Plant & Equipment is the cost of acquisition or construction together with any expenses incurred in bringing the assets to its working condition for its intended use.

Expenditure incurred for the purpose of acquiring, extending or improving assets of a permanent nature by means of which to carry on the business or to increase the earning capacity of the business has been treated as capital expenditure.

(3) Depreciation

The provision for depreciation is calculated by using a straight line method on the cost or valuation of all Property, Plant & Equipment other than freehold land, in order to write off such amounts over the estimated useful lives.

The principal annual rates used are:

	No. of years
Freehold buildings	20
Plant & machinery	10
Furniture, fittings & office equipment	8-10
Motor vehicles	4

No depreciation is provided on freehold land.

Depreciation of an asset begins when it is available for use whereas depreciation of an asset is ceased at the earlier of the date that the asset is classified as held for sale and the date that the asset is derecognized.

The appropriateness of useful lives of the assets and the residual value is assessed annually.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

(4) Plantations

(a) Permanent Land Development Costs
Land development costs incurred in respect of developing the land for cultivation which are permanent in nature, are capitalized as "land cost".

(b) Revaluation of Land

Revaluation of the freehold land in Malaysia is carried out on an existing use (oil palm plantation) basis

annually in order to ensure that the book value reflects the market value. Any surplus or deficit arising therefrom is adjusted through the Capital Accretion Reserve once in every three years, unless there is a significant change in the valuation in which case it is recognized immediately.

2.3.2 Bearer Plants

Bearer Plants represent immature and mature palm oil plantations and are stated at cost less accumulated depreciation. Oil palm trees have an average life up to 25 years, with the first 30 to 36 months as immature and the remaining years as mature.

(a) Immature plantations

Immature Plantations are stated at acquisition cost which includes the cost incurred for field preparation, planting, fertilizing and maintenance, capitalization of borrowing costs incurred on loans used to finance the developments of immature plantations and an allocation of other indirect costs based on planted hectares. No depreciation is provided during the immature period.

Carrying values of the Immature Plantation are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recovered.

Notes to the Financial Statements

(b) Mature plantations

Mature plantations are measured at cost amount less accumulated depreciation and impairment losses.

Depreciation is provided on straight-line basis over estimated useful life of the Mature Plantations and recognized in Profit or Loss Statement.

The principal annual rate used is:

	No. of years
Bearer Plants	22

Carrying values of the Mature Plantation are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recovered.

2.3.3 Financial instruments — Initial recognition and subsequent measurement

Financial assets within the scope of LKAS 39 are broadly categorised as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Company determines the classification of its financial assets at initial recognition.

All financial assets are recognised initially at fair value plus (in the case

of assets not at fair value through profit or loss) directly attributable transaction costs.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

The Company's financial assets include cash and short-term deposits, trade and other receivables, quoted and unquoted financial instruments.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

(a) Trade and Other receivables

Trade and other receivables are non-derivative financial assets with fixed or determinable payments. They do not consist assets that are quoted in an active market. Trade and other receivables are initially recognized at fair value plus any directly attributable transaction cost. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate method (EIR), less impairment. The losses arising from impairment are recognised in the profit or loss as a part of administration costs.

(b) Available-for-sale financial investments

Available-for-sale financial investments include equity securities. Equity investments classified as available-for-sale are those, which are neither classified as held for trading nor designated at fair value through profit or loss.

After initial measurement, available for-sale financial investments are subsequently measured at fair value with unrealised gains or losses recognised as comprehensive income in the available-for-sale reserve until the investment is derecognised, at which time the cumulative gain or loss is recognised in other operating income, or determined to be impaired, at which time the cumulative loss is reclassified to the Statement of Profit or Loss in finance costs and removed from the available-for-sale reserve.

Fair value of investments in unquoted ordinary shares are determined based on income approach that estimates the fair value by discounting projected cash flows in a discrete projection period to present value.

The Company evaluates its available for-sale financial assets to determine whether the ability and intention to sell them in the near term is still appropriate. Reclassification to loans and receivables is permitted

when the financial assets meet the definition of loans and receivables and the Company has the intent and ability to hold these assets for the foreseeable future or until maturity.

De-recognition

A financial asset is derecognised when:

- The rights to receive cash flows from the asset have expired
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of it, the asset is recognised to the extent of the Company's continuing involvement in it.

Notes to the Financial Statements

Impairment of financial assets

The Company assesses at each reporting date whether there is any objective evidence that a financial asset is impaired. A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset that can be reliably estimated.

Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Company determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the assets carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the statement of profit or loss. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account.

(c) Cash & Cash Equivalents

Cash and cash equivalents are cash in hand, demand deposits and short-term highly liquid investments, readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

For the purpose of Cash Flow Statement, cash and cash equivalents consist of cash in hand and deposits in banks net of outstanding bank overdrafts. Investments in money market instruments with short maturities i.e. three months or less from the date of acquisition are also treated as cash equivalents.

Financial liabilities

Initial recognition and measurement

Financial liabilities within the scope of LKAS 39 are classified as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, carried at amortised cost. This includes directly attributable transaction costs.

The Company's financial liabilities include trade and other payable.

Subsequent measurement

Trade and other payable are measured at amortized cost.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired.

2.3.4 Non-current assets held for sale and discontinued operations

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the

asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

Property, plant and equipment and bearer plants are not depreciated or amortized once classified as held for sale.

Assets and liabilities classified as held for sale are presented separately as current items in the statement of financial position.

A disposal group qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- Represents a separate major line of business or geographical area of operations
- Is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations

Notes to the Financial Statements

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit or loss.

2.3.5 Inventories

Inventories except for fresh fruit bunches are stated at cost or net realizable value whichever is lower, after making due allowance for obsolete and slow moving items. Fresh fruit bunches are stated at since realised values.

The value of consumable is determined on a weighted average cost basis.

2.3.6 Impairment of Non-Financial Assets

The Company assesses at each reporting date whether there is any objective evidence that a non-financial asset or a group of non-financial assets is impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the group of non-financial asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash generating unit's fair value less costs to sell or its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely

independent of those from other assets or group of non-financial assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

2.4 Liabilities And Provisions

Liabilities classified as current liabilities in the Statement of Financial Position are those obligations payable on demand or within one year from the reporting date. Items classified as non-current liabilities are those obligations which become payable beyond a period of one year from the reporting date.

All known liabilities have been accounted for in preparing these Financial Statements. Provisions and liabilities are recognised when the Company has a legal or constructive obligation as a result of past events and it is probable that an outflow of economic benefits will be required to settle the obligation.

2.4.1 Retirement Benefit Obligations

(a) Defined Benefit Plans - Retirement Gratuity

Gratuity is a defined benefit plan. The Company is liable to pay gratuity in terms of relevant statute.

The Company's operations in Malaysia are liable to pay Retirement Gratuity where employees have served in the Company's operations in Malaysia for more than five years and fulfilling the conditions in the

Malaysian Agricultural Producers Association and National Union Plantation Worker's agreements.

The Company measures the present value of the promised retirement benefits of gratuity which is a defined benefit plan with the advice of an actuary every year using "Projected Unit Credit Method".

The defined benefit costs comprise the following:

- Service cost
- Interest cost on the defined benefit liability
- Re-measurement of defined benefit liability

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognised as expense in profit or loss. Past service costs are recognised when plan amendment or curtailment occurs.

Interest on the defined benefit liability is the change during the period in the defined benefit liability that arises from the passage of time which is determined by applying the discount rate based on the yield on long term government bonds to the defined benefit liability. The interest on the defined benefit liability is recognised as expense or income in profit or loss.

Re-measurements comprising actuarial gains and losses are recognised immediately in

other comprehensive income in the period in which they arise. Remeasurements are recognised in retained earnings within equity and are not reclassified to profit or loss in subsequent periods.

Further, this liability is not externally funded.

(b) Defined Contribution Plans - EPF

All employees who are eligible for Defined Provident Fund contributions in Malaysia are covered by relevant contribution funds in line with the relevant statutes.

Employer's contribution to Defined Provident Fund covering the employees is recognised as an expense in the Statement of Profit or Loss in the period in which it is incurred.

2.4.2 Capital Commitments and Contingencies

All material capital commitments and contingent liabilities which exist as at the reporting date are disclosed in the respective notes to the Financial Statements.

2.5 Statement Of Profit Or Loss

2.5.1 Revenue

Revenue represents proceeds from sale of fresh fruit bunches from Malaysian operations and investment income from Sri Lankan operations.

Notes to the Financial Statements

2.5.2 Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue and associated costs incurred or to be incurred can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable net of trade discounts and sales taxes. The following specific criteria are used for the purpose of recognition of revenue:

Sale of fresh fruit bunches - upon delivery and acceptance by customers.

Dividend income - when the shareholders' right to receive dividend is established.

Interest income - accrued on a time proportionate basis.

Other income - on an accrual basis.

2.5.3 Expenditure Recognition

The expenses are recognized on an accrual basis. All expenditure incurred in the ordinary course of business and in maintaining the Property, Plant & Equipment in a state of efficiency has been charged to income in arriving at the profit for the year.

For the purpose of presentation of the Statement of Profit or Loss, the Directors are of the opinion that

“function of expenses” method presents fairly the elements of the Company's performance, and hence such presentation method is adopted.

2.6 Segment Reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components. All operating segments' operating results are reviewed regularly by the senior management to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the senior management and board of directors include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment and bearer plants.

2.7 Related Party Disclosures

Disclosures are made in respect of related party transactions in accordance with LKAS 24.

2.8 Critical Accounting Estimates And Judgments

The preparation of Financial Statements in conformity with Sri Lanka Accounting Standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses.

The estimates and underlying assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Estimates/Judgments made by management in the application of Sri Lanka Accounting Standards that have a significant effect on the Financial Statements are mentioned below.

	Policy	Note
Property, Plant & Equipment Valuation and Depreciation	2.3.1	6.4.3
Deferred tax	2.2.2(b)	6.4.1
Impairment of Assets	2.3.3 / 2.3.6	10
Employee Benefit Liabilities	2.4.1	6.4.2
Financial Instruments	2.3.3	10/12/13/16
Bearer Plants	2.3.2	11

2.9. Current Versus Non-Current Classification

The Company presents assets and liabilities in statement of financial position based on current/non-current classification. An asset as current when it is:

- Expected to be realised or intended to sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period Or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Notes to the Financial Statements

All other assets are classified as non current.

A liability is current when:

- it is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period Or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.10. Fair Value Measurement

The Company measures financial instruments such as investment in equity instruments, and non-financial assets such as land, at fair value at each reporting date. Fair value related disclosures for financial instruments and non-financial assets that are measured at fair value or where fair values are disclosed are summarised in the following notes:

Notes	
Disclosures for valuation methods, significant estimates and assumptions	6.4.3/12
Quantitative disclosures of fair value measurement hierarchy	10
Investment in unquoted equity shares	10/ 12.1
Property, plant and equipment under revaluation model	6.4.3
Financial instruments	12.2

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value

measurement is directly or indirectly observable

- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the Financial Statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, such as Freehold Land and unquoted investments. Involvement of external valuers is decided upon annually by the Management after discussion with and approval by the Company's Audit Committee. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The Management decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or reassessed as per the Company's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing

Notes to the Financial Statements

the information in the valuation computation to contracts and other relevant documents.

The Management, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

The Management presents the valuation results to the Audit Committee and the Company's Independent Auditors. This includes a discussion of the major assumptions used in the valuations.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.11 Standards Issued But Not Yet Effective

The standards and amendments and interpretations that are issued but not yet effective up to the date of issuance of the Company's Financial Statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

(a) **SLFRS 9 - Financial Instruments: Classification and Measurement**

SLFRS 09 establish principles for the financial reporting of financial assets and financial liabilities that

will present relevant and useful information to users for assessment of amount, timing and uncertainty of entity's future cash flows.

This standard is effective for annual periods beginning on or after 01 January 2018.

(b) **SLFRS 15 - Revenue from Contracts with Customers**

SLFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing revenue recognition guidance, including LKAS 18 Revenue, LKAS 11 Construction Contracts and IFRIC 13 Customer Loyalty Programmes.

This standard is effective for the annual periods beginning on or after 01 January 2018.

(c) **SLFRS 16 – Leases**

SLFRS 16 eliminates the current dual accounting model for lessees which distinguishes between On-Balance Sheet finance leases and Off-Balance Sheet operating leases. Instead there will be a single On-Balance Sheet accounting model that is similar to current finance lease accounting.

SLFRS 16 is effective for annual Reporting periods beginning on or after January 01, 2019.

The Company does not expect significant impact on its Financial Statements resulting from the application of the above Standards.

11.1 Adoption of Amendments to LKAS 41 (Agriculture) and LKAS 16 (Property, Plant and Equipment)

Up to 31st March 2016, the company had fair valued biological assets in line with LKAS 41.

With effect from 1st April 2016 the company adopted the amendments to LKAS 41 and LKAS 16 in keeping with the requirement to do so.

Accordingly, bearer plants are recognised at accumulated cost less depreciation (as a PPE) up to the date of classified as assets held for sale and have been applied retrospectively.

The corresponding adjustments relating to the reversal of the accumulated fair value gains, the corresponding foreign currency translation difference and the depreciation adjustment together with the related deferred taxation have been made via retained earnings (refer note 11.1.1)

As explained in note 6, these Malaysian plantation assets were disposed during the financial year.

12.1(a) Available-for-sale investment — Unquoted Equity Shares

The Company holds a 13.33% equity investment (2016: 13.33%) in Shalimar Development Sdn. Bhd. (SDSB), an investment holding company incorporated in Malaysia. The sole equity investment of SDSB is in PT Agro Indomas (PTAI), an oil palm plantation company based in Indonesia, in which it has a controlling interest. The Company has designated its investment in SDSB as an available-for-sale investment and is measured at fair value, the basis of which is detailed in Note 12.2 below.

12.1(b) Available-for-sale investment — Quoted Equity Shares

The Company holds a non-controlling interests of 10.73% (2016: 10.73%) in Shalimar (Malay) PLC. The fair value of the said investment is determined by reference to published price quotations in Colombo Stock Exchange. During the year as explained in Note 4.1 company sold 165,552 shares held in Shalimar (Malay) PLC consequent to repurchases offered made by that company.

12.2 Fair Values

Set out below is a comparison by class of the carrying amounts and fair values of the Company's financial Instruments that are carried in the financial statements.

	31 March		31 March	
	2017	2016	2017	2016
	Rs. '000	Rs. '000	Rs. '000	Rs. '000
Financial assets	Carrying amount		Fair value

Total	6,374,896	6,696,417	6,374,896	6,696,417

The Company obtained the services of PricewaterhouseCoopers Advisory Services Sdn. Bhd, Malaysia (PwC) to carry out an independent indicative fair market valuation of the equity interest in the unquoted investment in SDSB as at valuation date of 31 December 2016. The primary approach adopted was the Income Approach using discounted cash flows method.

Notes to the Financial Statements

Accordingly, the unquoted investment in SDSB of the Company has been valued based on the following key assumptions/bases:

- Estimated economic life of PTAI's oil palm plantations is 26 years (including the Immature period).
- Considered one planting cycle (i.e. no replanting at the end of the economic life).
- CPO ex-mill prices are projected at USD 525/MT in 2016/17 and stabilise at USD 724/MT.
- Yield per hectare based on year of planting, maturity profile and terrain.
- Weighted average cost of capital (WACC) range of 12% to 13%.
- Indonesian Corporate Taxation rate of 25%. p.a.
- Inflation assumed at approximately 4% to 5% p.a.

12.3 Sensitivity of the key assumptions used

The significant unobservable inputs used in the above fair value measurement categorised within Level 3 of the fair value hierarchy (Note 10) together with a quantitative sensitivity analysis are as shown below:

The below values are based on 13.33% equity stake in SDSB and base case is at WACC of 12.5%.

	WACC		CPO ex – mill price		Yield	
	1 % increase	1 % decrease	5 % increase	5 % decrease	5 % increase	5 % decrease
	Rs.'000	Rs.'000	Rs.'000	Rs.'000	Rs.'000	Rs.'000
Effect of Fair Value of unquoted equity shares in SDSB designated as AFS	(902)	969	2,238	(2,238)	1,737	(1,737)

- 12.4** The Management assessed that the fair value of cash and short-term deposits, trade and other receivables, trade and other payables approximate their carrying amounts largely due to the short term maturities of these instruments.

- 14.1 As explained in Note 6 and further to the market disclosure made and obtaining the shareholder and regulatory approval, the Company disposed of its plantation assets in Malaysia and distributed the net sales proceeds to the shareholders. Share repurchase offer was made to the share holders as a primary means of distribution. Accordingly, the Company offered maximum of 1,261,833 shares for repurchase on the basis of 2 shares for every 11 shares held at a price per share of Rs.1,349.80. The repurchase offer was opened from 29th December 2016 to 06th January 2017. The Company also obtained the approval of the shareholders on 16th November 2016 for the payment of consideration to the shareholders for the repurchase offer, as a major transaction in terms of section 185 of the Companies Act, No 07 of 2007.

Accordingly, the Company repurchased 1,261,833 shares which was the maximum number of shares offered for repurchase which comprised of 1,222,995 entitled shares and 38,838 additional shares and the Company distributed Rs. 1,703.22 Mn to the shareholders on account of the share repurchase. Note 1 - The Indonesian operations was significantly impacted by the el-nino weather patterns witnessed during the previous year and had recorded two consecutive years of adverse weather effects, resulting in reduced crop production. The performance of this investment has reflected similar crop production recorded by other listed entities in the region.

Note 2 – Up to 31st March 2016, the PT Agro Indomas had fair valued biological assets in line IAS 41. With effect from 1st April 2016 PTAI adopted the amendments to IAS 41 and IAS 16. Accordingly, Biological assets have been recognised at accumulated cost less depreciation (as a PPE). Consequently, accumulated biological gains of USD 65.18 Mn (net of tax) have been reversed to the retained earnings during the year under review. The valuation of SDSB as carried out by independent professional valuers as explained in note 12. 2 reflect the fair value of the investment which also considers the fair value of PTAI.

Oil palm trees have an average life up to 25 years, with the first 30 to 36 months as immature and the remaining years as mature. PTAI also follows the same accounting policies applicable to Oil Palm Plantation segment of the group as disclosed in Notes to the financial statement in pages 33 to 48.
