INTERIM REPORT FOR THE SIX MONTHS ENDED 30TH SEPTEMBER 2016

CEYLON GUARDIAN INVESTMENT TRUST PLC

Managers' Review

For the period ended 30th September 2016

Update on the market

The quarter ending September 2016 saw the equity market extend its recovery with the All Share Price Index increasing by 4.00% and the S&P SL20 index by 9.61%. Market participation in term of daily average turnover saw a sharp increase in August with large stakes of NDB changing hands and interest shown in John Keells Holdings and Distilleries. Market direction continues to be dominated by economic news and events, with higher interest rates subduing market rallies. The Central bank increased policy rates in July 2016 resulting in the increase of overall market interest rates and investors finding the longer term debentures and government bonds more attractive. We continue to monitor credit growth and forex reserves which will be key determinants of central bank policy direction going forward.

Market capitalization of the CSE was Rs.2,79 billion as at end June 2016 which was lower than the Rs. 3 trillion mark achieved in December 2015. The CSE currently trades at a historical PER of 13.4x in line with its historical average. Subdued economic activity due to tighter monetary policy has resulted in earnings growth expectations at a moderate 14% for the current financial year based on our universe of stock coverage. As long term investors we view with concern that market growth has averaged – 0.74 % CAGR for the last 5 years.

The CSE recorded three consecutive months of foreign inflows with net foreign buying of Rs. 3.2 billion. This has been largely attributable to a spillover effect from global investors looking to emerging markets for higher returns and yields. Large disparities in economic growth rates between developed economies and emerging economies is a key fundamental reason for global investors to revisit the emerging market proposition. Furthermore, events such as Brexit, negative yields and economic growth concerns have resulted in the 'lower risk' labeling of developed economies coming into question.

Looking forward, current market valuations provide investors higher potential returns as the economy eventually moves into a better economic footing. Several companies on the CSE have begun expanding into regional markets providing a new platform of growth. New reforms and trade agreements with regional countries also provide brighter prospects for the Sri Lankan economy, as well as commitments into infrastructure projects. Investor expectations for policy consistency especially on taxation will impact confidence in markets going forward.

Financials and portfolio performance

Ceylon Guardian Investment Trust PLC reported a consolidated profit after tax of Rs. 404.36 Mn for the period of six months ended 30th September 2016, compared to a profit of Rs. 774.44 Mn reported for the same period last year, a reflection of the subdued market activity when compared with last year. As at end September 2016 the Group's earnings per share stood at Rs. 3.64 and Net Asset Value when the portfolio is valued at market prices was Rs. 180.25 per share, a decline of 0.8 % for the period. This highlights a steep discount of 30% in the traded market price per share of Rs. 126.00.

As at	30/09/2016	31/03/2016	Change %
ASPI	6,534.77	6,072.00	7.6
NAV per share (Rs.)	180.25	181.77	(0.8)
Market price per share (Rs.)	126.00	119.70	5.3
Discount of NAV to market price per share	30%	34%	

The total portfolio depreciated from Rs. 19.43 Bn to Rs. 19.27 Bn during the period of review. The Ceylon Guardian portfolio is segmented into discretionary and non – discretionary components based on the ability to influence decision making on purchase and disposals. The discretionary component of the portfolio is made up of a trading portfolio and long term portfolio, which are actively managed. The non- discretionary component refers to the strategic holding. The composite performance is detailed below:

	As at			As at 30-Sep-16 (Dividend adjusted)	Dividend adjusted performance
	30-Sep-16	31-Mar-16	Change %		
Discretionary portfolio (Rs. '000) *	13,759,644	12,274,728	12.10%	14,072,107	14.64%
Total Portfolio (Rs.'000)*	19,277,972	19,428,117	-0.77%	19,590,435	0.84%
ASPI (Points)	6,534.77	6,071.88	7.62%		7.62%
S&P 20 (Points)	3,617.32	3,204.44	12.88%		12.88%

**After adding back the total cash outflow from the distribution of dividend by the Group which was Rs. 312.46 mn during the period.*

Despite outperforming the All Share Price Index by 6.26% CAGR over a five year period the return of the discretionary portfolio over this time period has been 5.52% CAGR. The 5 year CAGR -0.74% return provided by the All Share Price Index is pale in comparison to the Treasury bill return of 9.02%. We expect this anomaly to be rectified as Sri Lanka's economic development moves to a faster trajectory based on economic plans announced by the government.

The prevailing uncertainty for the CY 2016 in markets has provided Guardian an opportunity to deploy further cash into the equity market acquiring fundamentally strong companies that trade at a discount to their intrinsic values. During this financial year we took positions in Tokyo Cement due to its direct exposure to the growing construction industry, Softlogic due to a renewed management focus on core growth sectors and added onto our existing positions such as Sampath Bank, Hatton National Bank, Peoples Leasing and Finance, etc. We hold approximately 10.75% cash in the discretionary portfolio and will look to further increase equity exposure as opportunities arise. The discretionary portfolio remains largely bullish on the banking, finance & insurance sector, food & beverage sector and diversified sector. In terms of single company exposure the main stocks are to John Keells Holdings, Sampath Bank and Commercial Bank which are fundamentally strong and show strong growth potential.

On the private equity front we deployed LKR 45 Mn in Findmyfare (Pvt) Ltd during the quarter. Findmyfare is Sri Lanka's first and largest online travel agent. The company is strong in air tickets and plans to expand aggressively into the hotels, holiday packages, cruises and corporate sales. With respect to our joint venture initiative with Small Enterprise Assistance Funds (Pvt) Ltd, the marketing of the proposed PE fund has commenced, whilst necessary regulatory approvals are also in the process of being obtained.

Our unit trust business continues to grow attracting both corporate and retail investors. The confidence in Guardian from our unit trust investor base grows with AUM of the joint venture company Guardian Acuity growing by Rs.578.02 Mn up to 9 months ending Sept despite the overall industry declining by Rs.14.83 Bn during the same 9 months. Along with unit trust assets at Rs. 5.3 Bn and institutional client portfolios at Rs. 4.1 Bn, our total external funds under management stands at Rs. 9.4 Bn. Thus total actively managed assets collectively with the Guardian Group portfolio amounts to Rs. 23.2 bn, positioning us among the largest equity managers in the country.

Our successful strategy which has prevailed for well over a decade remains focused on a bottom up investment selection where it is very much investee company focused with a bias on medium to long term stock picking.
